

Interscape Technologies Inc.

Interscape provides the following **SAN Infrastructure Services** (including Extensive Analytics, Visualizations, Bottle-neck Analysis, Recommendations and Implementation Plans):

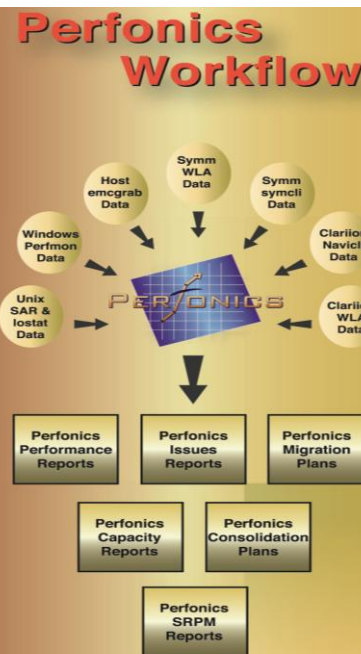

Ad Hoc Services

- Floor Analysis
- Performance Troubleshooting
- Migration Planning
- Consolidation Modeling
- Right Sizing & Right Tiering
- SAN Assessment & Best Practices
- Bandwidth Analysis
- Green Analysis

Recurring Services (monthly, quarterly, annual)

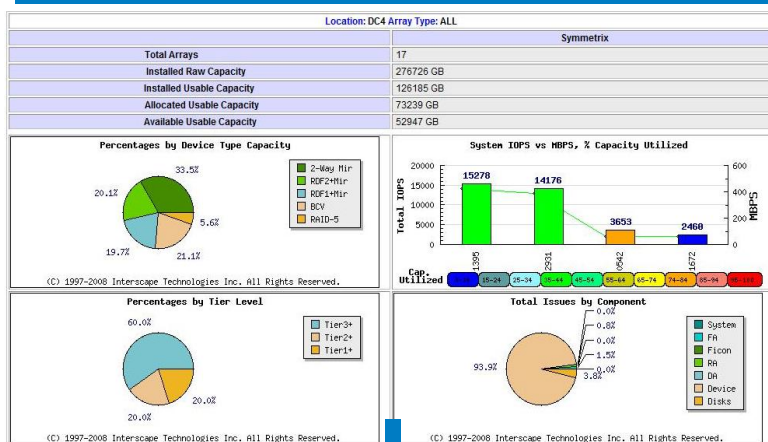

- Performance Analysis As A Service™ PAAS
- Capacity Planning As A Service

- ❖ Performance Analysis of Enterprise Storage systems on recurring basis (EMC, HDS, IBM)
- ❖ OS Performance Analysis for Enterprise Servers
 - Solaris, Linux, AIX, Windows
- ❖ Application Tiering Analysis
 - Performance Profiling for Storage Tiering Recommendations (Cost Optimization)
- ❖ SAN Consolidation Modeling & Planning
 - Array level consolidation
 - Host level consolidation
- ❖ Data Migration Planning
 - Detailed Plans for source to target planning
- ❖ Bandwidth Analysis
 - DR Replication for Arrays & Data centers
- ❖ Storage Optimization
 - Right Sizing & Right Tiering

- ❖ Enterprise Dashboard views
 - Enterprise Performance Dashboard
 - Enterprise Capacity Dashboard
 - Enterprise Performance Trends
 - Enterprise Capacity Utilization Trends
 - Enterprise FA FAN-OUT Dashboard
- ❖ Individual Array Dashboard Views
 - Array Performance and Capacity Dashboards
 - Potential Issues List
 - Array Heat Charts
 - FA Availability Index based on FA Utilization which includes
 - FA IOPS & MBPS
 - FA FAN-OUT
 - FA Masked Device Counts
