

Interscape's **SME lead Capacity Planning As A Service™** provides ongoing pro-active capacity planning analytics and reporting for Storage & Servers by providing historical trends and projections for IT storage capacity (TB), storage performance (IOPS) and compute resource utilizations (CPU, Memory, Network). **A truly comprehensive approach.**

The robust proprietary Perfonics™ toolset is leveraged to provide **Capacity Planning As A Service™ (CPAAS)** on continuous basis (monthly, quarterly or annual) for small to very large multi-petabyte storage and systems infrastructure. The CPAAS methodology provides a holistic approach by including performance (hardware resource utilizations) and pure capacity utilizations across major IT layers. The **Capacity Planning As A Service™** methodology includes a SME, the cloud based Perfonics™ toolset and a back-end team that customizes the analytics for the client as part of the service at no additional charge.

We can help you with:

- **Capacity Planning** across IT layers – Trending
 - **Storage:** Capacity (TB) & Performance (IOPS)
 - **SAN Switches:** Port Usage & Bandwidth Utilizations
 - **Virtualized Servers:** ESX & Guest VMs (IOPS, CPU, Storage)
 - **Physical Hosts:** Capacity Utilizations & Compute (IOPS, CPU)
- **End-to-End Configuration Views** showing storage up to Guest VM connectivity and usage
- **Customized Reporting** – Our SME can help remotely by leveraging our Perfonics™ Tool-chest and the R&D Team for fast efficient turnaround of customized analytics
- **Disaster Recovery** Planning by showing production and DR site device level relationships

CAPACITY PLANNING AS A SERVICE™ (CPAAS) - Key Features

- *Cloud based model with remote SME*
- *Non-intrusive – no software or agents needed*
- *Leverages existing & native performance data sets*
- *Zero resource requirement at your end*
- *Multi-vendor storage (EMC, Netapp, HDS, IBM, 3PAR, PureStorage, Nexenta...)*
- *Multi-OS (Windows, Linux, AIX, Solaris...)*
- *ASAP engagement with Quick turn-around*
- *Independent & vendor un-biased Best Practice assessments*
- *Single hourly/daily rate covers SME+Tool+Team*
- *Costs a fraction of a fulltime skilled resource & tool licenses*
- *Over 50+ reports with customized reporting*
- *Short term or long term engagements*
